This is an amended Sequence Listing. Corrections were made to the original-filed Sequence Listing which had designated the first eight sequences as DNA. In the present amended Sequence Listing these eight sequences are designated as RNA.

The amended Sequence Listing was originally filed On October 6, 1999 with the EPO ISA for the parent application, PCT/CA99/00391. However, no mention of the amended Sequence Listing appeared in the Written Opinion of the IPER. Therefore, if this sequence has not yet been incorporated into the application, please do so with this filing.
